Precision temperature sensors

TRK277/7 PLUS, TRK277/5ST-PLUS, TRK277/7ST-PLUS

TRK-EEV, TRK-EEV/7ST

TRK277/G2

TRK277/ESF-7

Features

- Temperature sensor with high measuring precision
- NTC resistor

Types

For cold rooms and refrigeration units	
TRK277/7 PLUS	Precision temperature sensor with 7m connecting cable and cable end sleeve, metal sleeve
TRK277/5ST-PLUS	Precision temperature sensor with 5m connection cable and connection plug for FKD003 and FKE003, metal sleeve
TRK277/7ST-PLUS	Precision temperature sensor with 7m connection cable and connection plug for FKD003 and FKE003, metal sleeve
For EEV applications	
TRK-EEV	Precision temperature sensor for suction gas/EEV with 7m connection cable and wire connection, metal sleeve
TRK-EEV/7ST	Precision temperature sensor for suction gas/EEV with 7m connection cable and connection plug for FKD003, FKE003 and EEV module, metal sleeve
For room temperature	
TRK277/G2	Precision temperature sensor in wall housing with 2m connecting cable and cable end sleeve
Temperature penetration sensor	
TRK277/ESF-7	Temperature penetration sensor, 150 x 4, metal tip with 7m connection cable and wire connection, lancet sensor with engraved depth scale (13cm) and plastic grip

Writing conventions

Symbol	Meaning
 CAUTION	Avoid the described hazard: otherwise minor or medium physical injury or damage to property will result.
 WARNING	Avoid the described hazard: otherwise there is danger from electric voltage that could lead to death or serious physical injury.

For your safety

For safe operation and to avoid personal injury and equipment damage through operating error, always read these instructions, become familiar with the device, and follow all safety instructions on the product and in this document, as well as the safety guidelines of Wurm GmbH & Co. KG Elektronische Systeme. Keep these instructions ready to hand for quick reference and pass them on with the device if the product is sold.

Wurm GmbH & Co. KG Elektronische Systeme accepts no liability in case of improper use or use for other than the intended purpose.

Target group	These instructions are intended for "service technicians".
Intended use	The TRK277 is a universal precision temperature sensor with high measuring accuracy.

WARNING

Danger to life from electric shock and/or fire!

- Do not open the device.
- Do not repair the device yourself! If required, send it in for repair with an exact description of the fault.

TRK277/ESF-7

For sensor extensions, it is recommended that sheathed cable be laid.

Cable length	Cross section
up to 100m	0.75mm ²
up to 400m	1.5mm ²

NOTE

- Please pay attention to sharp edges when laying the sensor cable. Damage to the cable insulation can result in leakage and therefore water penetration, thus causing incorrect measurements.
- Avoid pulling forces on the sensor sleeve. These can also result in leakage.
